

EOS IRS 30 Ceramic

Infrared radiator for IR warming- and sauna cabins. IR-C range.

IR radiator for wall-mounting installation. Completely assembled with 3 m silicone coated cable, with Wieland type plug.

Your advantages:

- Fast heat-up time
- Advantageous reaction on heat emission of ceramic material
- With 300 W ceramic emitter
- Long-wave IR-C range
- With reflector shield of polished aluminium, protective flocked safety grill and silicone coated cable
- Made in Germany quality from EOS

Technical Data:

Casing:	electrolytic galvanised steel plate
Reflector:	burnished aluminium reflector
Covering grille:	with protective flock spray
Assembly:	horizontal or vertical, no ceiling suspension
Dimensions (HxWxD):	560 x 185 x 65 mm
Power input:	300 W
Power supply:	230 V 50 Hz
Weight:	approx. 2 kg

MADE IN GERMANY

Connection diagram

Installation

Attention! Make sure to provide sufficient air circulation around the radiator. The space above the radiator must not be blocked, so that the warm air may rise freely. **Risk of fire!**
